Quality Assurance

Practices and Methodology for Total Quality

Eye on Quality

Our Quality Mission:

“We will listen to and clearly understand our customers. With efficient processes and quality conscious employees, we implement solutions that meet and exceed our customer’s expectations.”

We Institutionalize Quality

The quality of work IonIdea performs for our clients is excellent. We consistently achieve these results through our customer engagement and solutions delivery methodology IonExpress. The IonIdea Development and Solutions center is ISO certified, and we are fast moving towards SEI-CMM level 4 assessment.

Our Guarantee

We guarantee complete satisfaction. Our Performance Based Pricing ensures that if our work falls anything short of excellent, we pay the price.

Our Customer Service Agreement ensures that we deliver what you expect and when you expect it.

IonIdea’s Quality Agenda

IonIdea’s Quality Assurance Practice has teams of Quality Assurance engineers specially trained in Quality Assurance Best Practices, Requirements Analysis, Risk Assessment, Change Control, Defect Tracking, Metric Collection, Test Plan Preparation and Testing.

The goal of IonIdea’s Quality Assurance practice is to consistently deliver excellent work to our clients, and to improve our quality management process.
